DALIAN FENGZE INTERNATIONAL TRADE CO., LTD.

Emergency, Municipal & Field Logistics Equipment | Export from China

Dalian Free Trade Zone, Liaoning, China · FOB Dalian / Qingdao / Shanghai · Foreign-trade operator, customs registered, VAT refund status · USCC 91210213MA0QCF8M8G

WHO WE ARE

Dalian Fengze International Trade Co., Ltd. is an export house registered in the Dalian Free Trade Zone, established 2015, registered capital RMB 5,000,000 (USCC 91210213MA0QCF8M8G). We sell Chinese-built emergency response, municipal service and field logistics equipment into Africa, the Middle East, Southeast Asia, Central Asia and Latin America. We hold a full foreign-trade operator registration, customs consignor/consignee registration, foreign-exchange settlement account and export VAT refund eligibility, and we export in our own name.

Our manufacturing base is the equipment group under Xinxing Cathay International Group (Fortune Global 500, No. 318, supervised by SASAC) — 50+ member companies, six manufacturing bases, 67,000 employees. Its plants began as military logistics works in 1953 and built the first bulldozer in China; they remain the country's most complete supplier of serial emergency-rescue equipment. Fengze is the commercial and export channel: quotation, contract, export documentation, inspection, freight and after-sales spares coordination.

Licensed scope of business (business licence, Dalian Free Trade Zone, 2022): import and export of goods and technology; new-energy vehicle and electric vehicle sales; auto parts wholesale and retail; vehicle towing, roadside assistance and clearance services; used-vehicle brokerage and appraisal. Business licence, customs registration and tax records available on request.

WHAT WE EXPORT

Family	Products	Export form
Field logistics (towed)	XC250 field kitchen trailer, water purification trailer 3 t/h, shower trailer, laundry trailer, mobile toilet trailer (10 users)	Trailer, containerised
Water & flood response	Remote water supply system 60 / 110 / 220 / 440 L/s over 1–8 km; emergency drainage 1,500 m³/h over 1 km; foam concentrate transfer 10 / 30 / 40 L/s	Truck-mounted / towed
Municipal & earthworks	Sanitation bulldozer TY160H / TSH160 (160 hp class), refuse and landfill configuration	Whole machine
Relief NFI	Family tents 12 m² / 20 m², blankets, quilted coats, folding beds, protective clothing, rescue footwear	Bulk / palletised
Energy storage	LNG / CNG / hydrogen semi-trailers; 20 ft and 40 ft tank containers (IMDG certified)	Semi-trailer / container

WHY BUYERS CHOOSE THIS CHANNEL

- Numbers, not adjectives: 250 meals in 2 hours with 4 cooks; 3 t/h of drinking water from river or lake water with 3 operators; 1,500 m³/h of drainage per set.
- Field-proven: 21 drainage sets deployed to the 2018 Shouguang flood and more than 1,000,000 m³ pumped; three remote water supply systems ran four days and nights in Haikou, draining 200,000 m³.
- Built to military logistics standards — units are supplied in UN white livery for peacekeeping deployment, and run without generators or fixed power.
- One container, one spare-parts kit: the kitchen, purification and toilet units share a trailer platform, so one parts set covers all three.
- Export paperwork done in-house: CO, packing list, invoice, B/L, insurance, and destination scheme documents (SONCAP, PVoC, SASO/SABER) handled before shipment.

FROM THE PRODUCTION LINE

XC250 deployed, canopy up

Transport position, UN white livery

Boiling and frying modules

REFERENCE OPERATIONS (CLIENT NAMES WITHHELD)

Event	Equipment	Result
Shouguang flood, 2018 (Typhoon Rumbia)	21 drainage systems	Over 1,000,000 m³ pumped
Haikou, Typhoon Rammasun, 2014	3 remote water supply systems	4 days and nights, 200,000 m³ drained
Zhangzhou Gulei PX fire, 2015	Remote water supply system	30,000 t delivered over 50 h, water drawn 2 km offshore
Changzhou, 2016	Remote water supply system (delivered one week earlier)	24,000 t over 30 h
Tianjin port paper warehouse fire, 2017	Remote water supply system	10,000 t over 10 h, 7,400 m² fire area
Sanya, Typhoon Haiyan, 2013	Remote water supply system	15,000 t drained over 20 h

EXPORT LOGISTICS FROM DALIAN

Dalian is our home port: closest Chinese gateway to Korea, Japan and the Russian Far East, with direct services to Southeast Asia and regular transhipment to the Middle East, Africa and Latin America. For heavy or over-height units we quote break-bulk and flat-rack alternatives from Dalian, Qingdao or Shanghai, whichever gives the better sailing and the lower landed cost.

Item	Detail
Price basis	FOB Dalian (default) · FOB Qingdao / Shanghai · CIF on request · DDP not offered
Payment	30% T/T with order, 70% against copy of B/L — or 100% irrevocable L/C at sight
Lead time	{{xx}} days after deposit or L/C, confirmed per model at order
Packing	Seaworthy export packing; container loading plan issued per order with dimensions and gross weight
Documents	Invoice, packing list, B/L, Certificate of Origin, insurance (CIF only), test reports, SONCAP / PVoC / SASO as required by destination
Warranty	12 months from delivery excluding wear parts; 1-year spare-parts kit quoted separately
Installation	Commissioning drawings and video support included; on-site engineer on request at cost

WHAT WE NEED FROM YOU TO QUOTE

1	Product and configuration	e.g. XC250 + water purification trailer, 4 module layout
2	Quantity	e.g. 3 units, or 1 unit as a trial order
3	Destination	Port and country — we confirm the IncoTerm and the landing cost from there
4	End use	camp / municipal / relief operation — required for export licensing where applicable

Send those four items and you get a formal quotation with packing plan and lead time within two working days.

HOW A FIRST ORDER RUNS

Day 0	You send product, quantity, destination port and end use
Day 1–2	Formal quotation: FOB/CIF price, packing plan, container loading plan, lead time
Day 3–5	Configuration drawing and, if required, a video call with the factory technical team
Order	Proforma invoice issued; 30% deposit or L/C opens the production slot
Production	{{xx}} days; pre-shipment inspection and loading photos sent before the vessel sails
Shipment	Original documents couriered; B/L copy released against the 70% balance; spares kit shipped with the unit
